

Hello, fellow traveller

We are an up-and-coming caravan rental and conversion company based out of Ahmedabad. We design a range of caravans to rent for short or long-term travels around the country. Whilst being as near to a home as possible, our vans are equipped with everything you may need on a roadventure....

vahn

Our high standards for, both, form and function, come together in our brand new caravan...

The Roller

The 'Roller' is inspired by and similarly visualised as the 'Indian Roller bird',

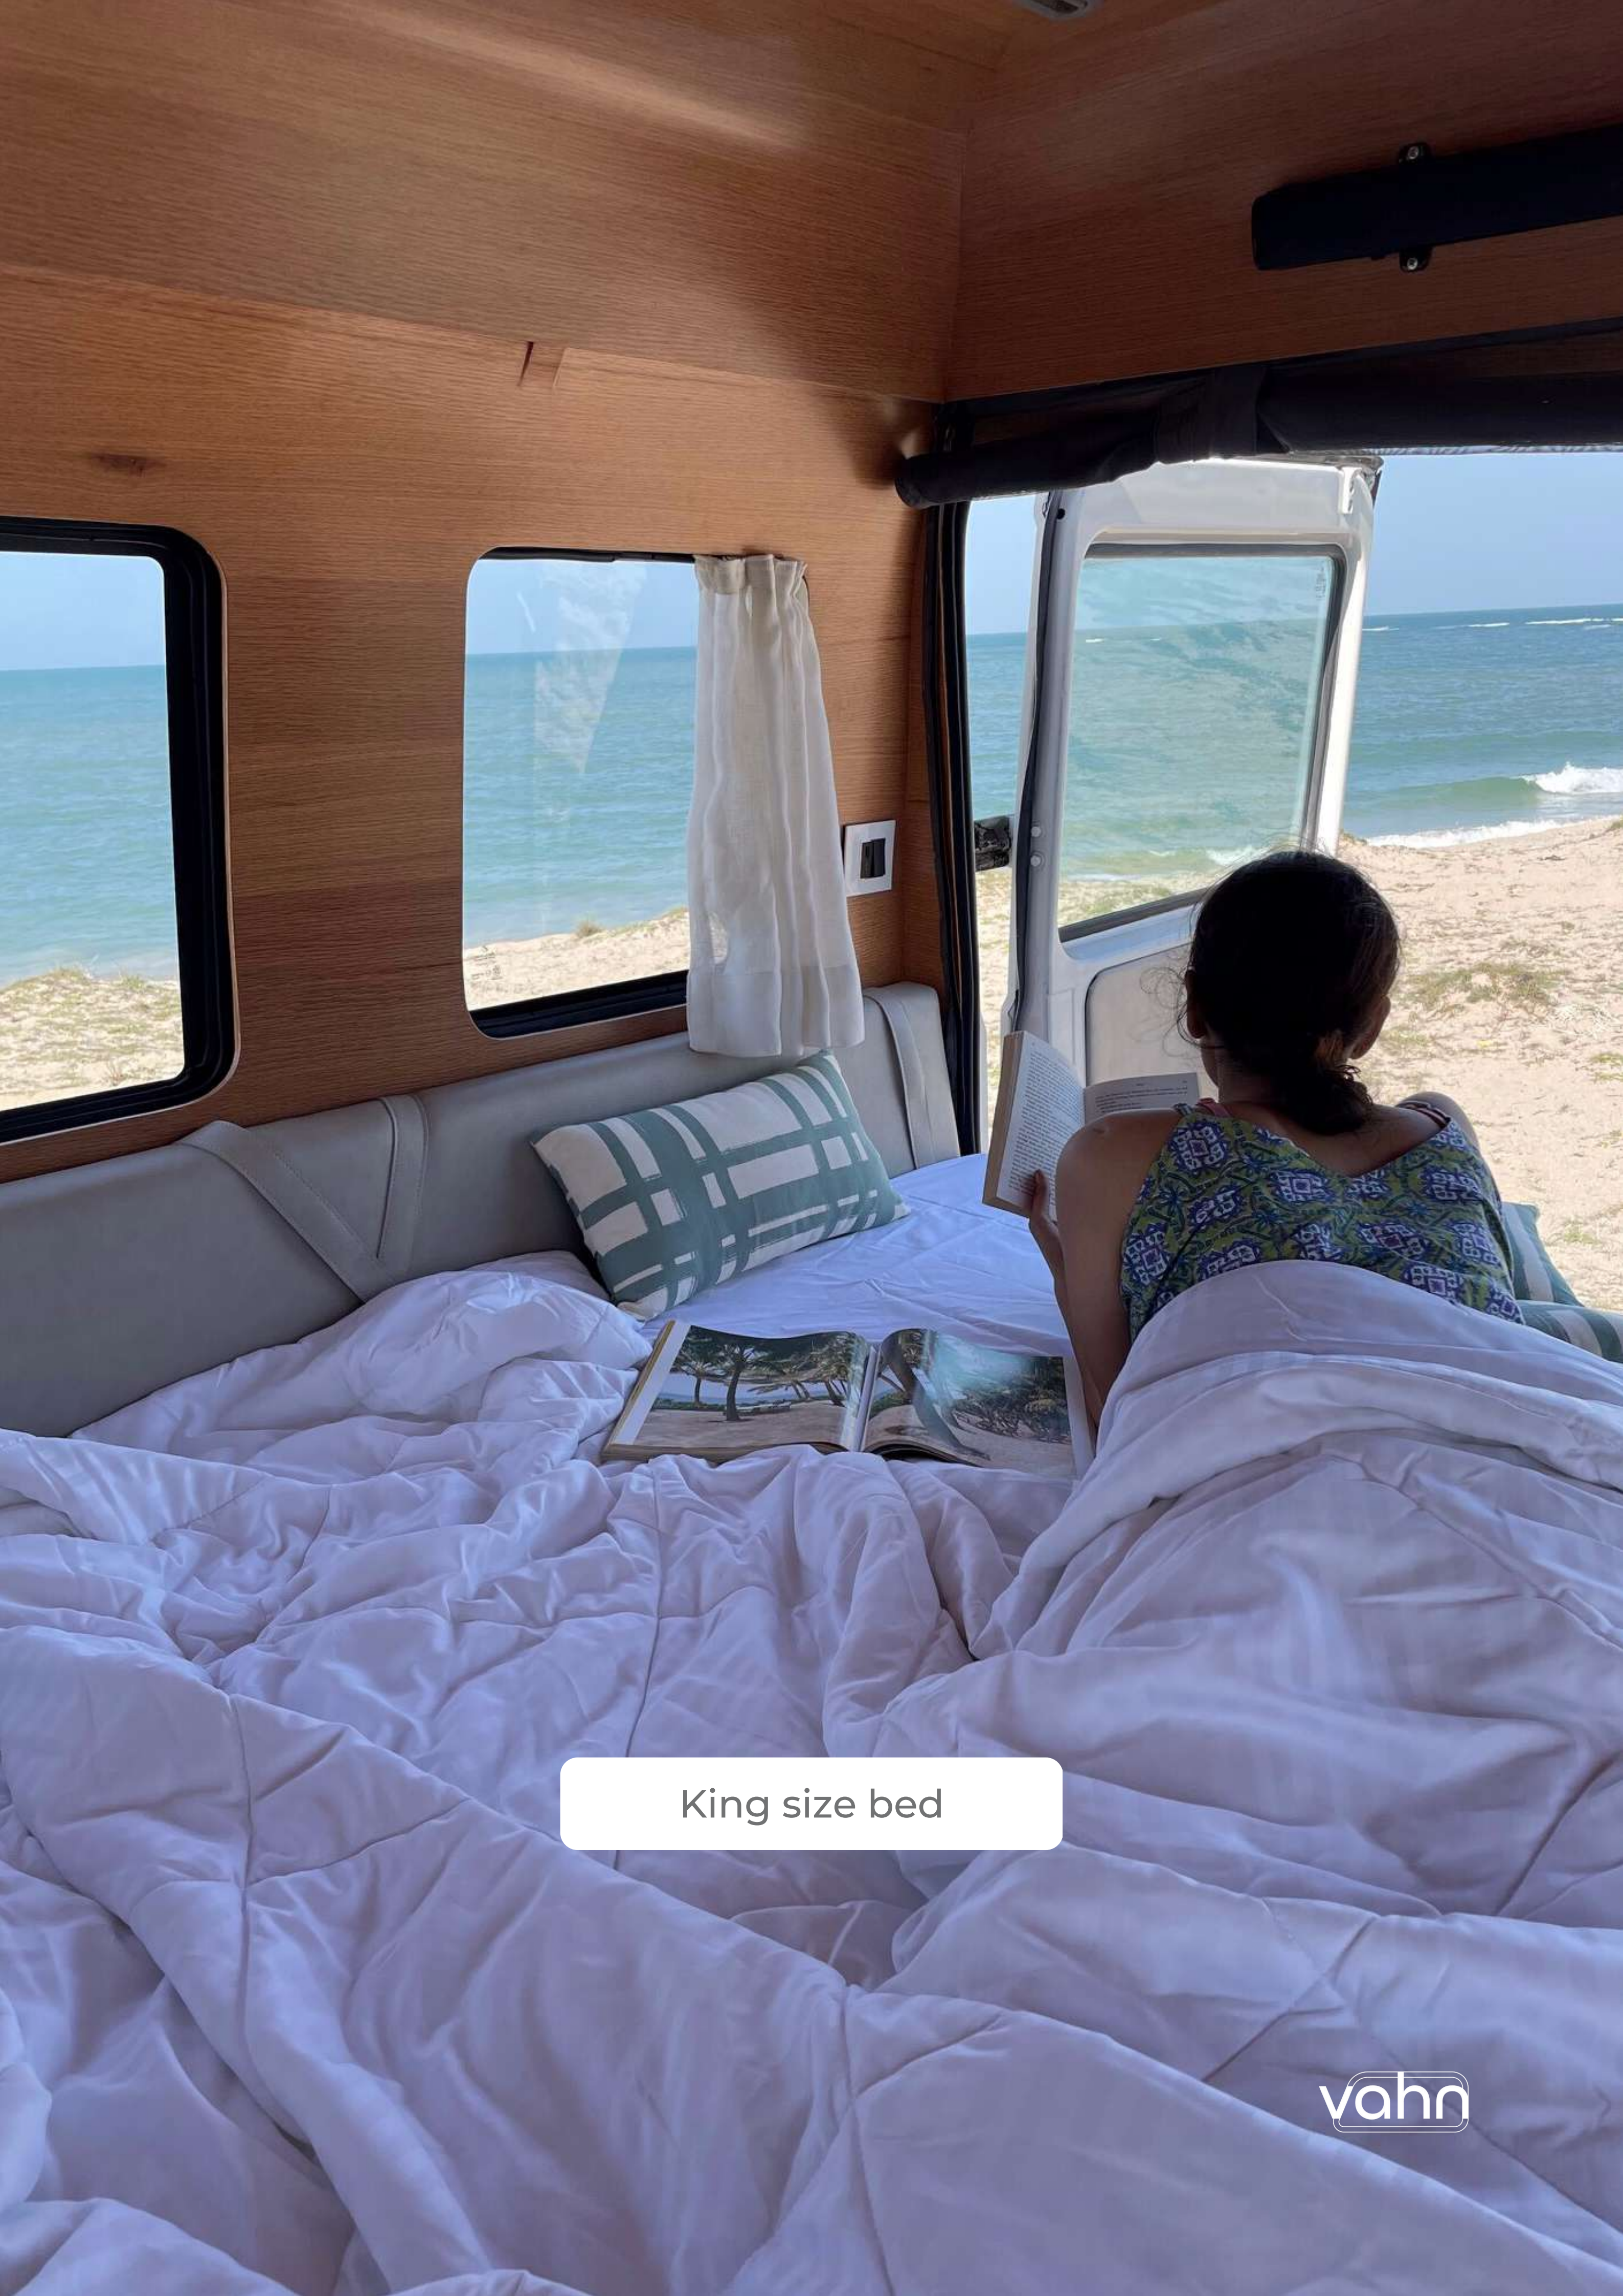

The finest natural wood wraps around the van's vault, whereas teal hues and supple furnishings anchor its ground. The interiors lend you a seamless travel and living experience, blending top-of-the-class features with impeccably finished materials.
