

Hello, fellow traveller

We are an up-and-coming caravan rental and conversion company based out of Ahmedabad. We design a range of caravans to rent for short or long-term travels around the country. Whilst being as near to a home as possible, our vans are equipped with everything you may need on a roadventure....

vahn

The Rosefinch

Our newest van is inspired by the 'Scarlet Rosefinch' bird, abound in Asian countries and Indian states. Though they are usually found in thickets and woodlands, we've managed to bring them to you anywhere on the map.

She can sleep 4 and seat 6 under the shade of her wings, let you cook up a storm as she tweets, and when you're all tired and dusty she'll let you preen your feathers in her very own shower suite. Oh and you can watch movies on its in-built projector screen. Ready to take her out?
